Introduction

The week of November 17 to 23, 2025, will mark the 10th edition of Early Childhood Week, which aims to elevate the issues affecting young children in public conversations and priorities, and to make decision-makers and society at large more aware of the importance of investing in our littlest citizens today, for a better tomorrow.

Primary Message

**10 years of upward momentum,
and the journey is only beginning!**

**Together, let's empower every child
to reach their highest potential.**

Primary Message (cont'd)

The theme for 2025 allows us to look back on 10 years of mobilizing early childhood development stakeholders across Quebec and chart a way forward:

- 1 What kind of progress have we made in terms of advocating for young children over the past 10 years? What challenges have we encountered?
- 2 What are our ambitions for the coming decade? Where will we focus our engagement efforts on behalf of children five and under?

Secondary Messages

1

Early Childhood Week aims to give a voice to the 514,747 children aged five and under* in Quebec and make early childhood development a true priority for our society.

*Provisional figure for 2023

2

Early Childhood Week is an opportunity to stop for a moment, turn the spotlight on early childhood development in Quebec and think about what we can do, together, to help young children realize their full potential.

3

Today's toddlers are tomorrow's adults. Let's make sure they all have an equal chance at growing into their best selves and becoming productive, engaged members of society.
